DETAILED ACTION

Response to Amendment

Election/Restrictions

1. Newly submitted claims 25-27 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Applicant originally presented invention directed to a filtering system and method for blocking leakage signals in a communication system. Whereas, the newly submitted claims are directed to a system for coupling a plurality of subscriber loops to a data transceiver having a plurality of eavesdropping prevention system coupled between the subscriber loops and the transceiver.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 25-27 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 1-4 and 9-24 are allowed.
